Kawasaki

JETSKI SX-R

RULE THE WATER

PUSHING THE LIMITS OF FUN AND PERFORMANCE

With powerful thrust and agile rider-active handling from the V-shape hull, the Jet Ski SX-R offers a 1,498cc engine and hull performance that delivers comfort and confidence. Stunning acceleration and superb cornering performance create a whole new level of exhilaration, bringing the sport of stand-up watercraft into the modern age.

JET SKI SX-R

EBONY / LIME GREEN

JET SKI SX-R

EBONY / LIME GREEN

UNPRECEDENTED POWER

The Jet Ski SX-R is powered by a 1,498cc four-cylinder inLine four-stroke engine. Thanks to Ninja ZX-14R motorcycle-derived technology, it's the hardest accelerating production stand-up Jet Ski ever. Fed by digital fuel injection and a composite intake manifold, power is responsive and crisp. Plenty of thrust is available even at low rpm and the abundant torque and smooth power delivery helps riders feel more confident.

RIDER-ACTIVE HULL

The V-shape lightweight hull design offers an ideal combination of light handling and agility. The hull of the Jet Ski SX-R carries the engine low and close to the rider, resulting in exceptional cornering performance and outstanding handling both in straight lines and in turns.

REINFORCED HANDLE POLE

The reinforced handlepole features a stainless steel MIX-style handlebar. The pole's pivot point is positioned to reduce the amount of forward/backward movement at the grips and puts the rider's hands in a comfortable ergonomic position to help minimize fatigue.

WIDE DECK

A generous deck area allows for optimal rider movement. The forward slant of the deck helps riders brace against the Jet Ski SX-R watercraft's strong acceleration while the raised rear portion provides a stable rear foot plant. Side deck rails provide a useful point of leg leverage when turning. The Hydro-Turf™ ribbed traction mat contributes to grip and rider stability.

POWERFUL PROPULSION

3-Blade stainless steel impeller and high-efficiency jet pump control cavitation for powerful acceleration.

DESIGN

A key-operated magnetic ignition switch helps deter theft and a wrist lanyard connected to the engine stop switch automatically cuts power to the engine if the lanyard is removed. Integrated floatation cells help keep the Jet Ski SX-R afloat.

- Convenient low fuel and engine warning lights on the handle pole pad
- Quick-access hood makes it easy to perform maintenance
- Injection-molded sponsons contribute to sharp, responsive handling
- The exclusive Kawasaki Splash Deflector (KSD) helps reduce spray.

JETSKI ULTRA 310LX

JETSKI ULTRA 310X

SUPERCHARGED LUXURY

POWERFUL, FAST AND LIGHT WITH INDUSTRY-LEADING PERFORMANCE

With three-passenger seating and premium technology, the Jet Ski Ultra 310 Series is built to take on anything from leisurely cruises on the lake to exhilarating races. The supercharged 1,498cc engine, deep-V hull design and advanced propulsion technology take performance to extraordinary heights and provide class-leading handling in rough water.

JET SKI ULTRA 310LX

EBONY / CANDY LIME GREEN

JET SKI ULTRA 310LX

EBONY / CANDY LIME GREEN

SUPERCHARGED ENGINE

The digitally fuel injected 1,498cc in-line four-cylinder marine engine with supercharger is highly efficiency and compact. The Eaton Twin Vortices (TVS) Roots Supercharger force-feeds the engine air in a continuous flow, which contributes to smooth throttle response and ensures a stable supply of high-pressure air at all rpm.

RACE-DEVELOPED LIGHTWEIGHT HULL

The advanced deep-V hull is designed to handle the enormous output from the supercharged engine. With a 22.5-degree hull angle, the Jet Ski Ultra 310X can penetrate swells and waves with great efficiency and less shock. Tuned sponsons provide straight line stability and tighter performance in turns. The hull is also conveniently equipped with a retractable re-boarding step and two separate flush ports for the engine and intercooler.

ELECTRIC TRIM-CONTROL

Electric Trim-Control system (ETC) allows the rider to adjust handling characteristics by controlling the jet pump nozzle. Adjust the ETC right from the handlebar to raise hull attitude for improved rough-water handling or lower for increased turning performance.

KAWASAKI SMART STEERING (KSS)

The system assists the operator's handling by simultaneously monitoring the steering input and the engine speed. The system offers assistance when the throttle is released from high speed and a turn is initiated.

JETSOUND™ AUDIO SYSTEM

ULTRA 310LX ONLY

Kawasaki Jetsound™ is the world's first standard equipment PWC audio system. The built-in amp and 60-watt speakers projects your tunes loudly, while audio control is performed through the controller built into the handlebar.

5-WAY ADJUSTABLE HANDLE

Adjustable handle suits a wide range of riders and riding styles, allowing either stand-up or sit-down riding.

CRUISE CONTROL

For steady cruising on the water, enjoy the convenient luxury of the Electronic Cruise Control system. Set your speed with a push of a button and enjoy the ride!

ECO

Fuel economy assistance mode switches the ECU to a leaner fuel map. Monitor fuel consumption on the digital LCD screen, where an ECO indicator will also let you know when you're riding in the most efficient range.

SPONSON

Sponsons extend from the hull to provide stable straight-line performance while helping to retain the machine's narrow overall design.

KAWASAKI SPLASH DEFLECTOR

Minimise spray at speed or in rough water with the Kawasaki Splash Deflector (KSD). The four KSD ridges located across the bottom of the bow help keep you and your passengers comfortable.

LUXURY SEAT

ULTRA 310LX ONLY

LXury Seat™ offers enhanced cruising comfort, is contoured for a good ergonomic fit and offers ultra-comfortable accommodation for three. It uses a cover material that resists heat gain to keep the seat surface cooler.

5-MPH MODE

One-touch 5 mph Mode regulates engine speed to cruise through no-wake zones at 8 km/h (5 mph).

ELECTRONIC THROTTLE VALVES (ETV)

Electronic throttle valves efficiently manage the engine's massive power output and are controlled by the Electronic Control Unit (ECU) making minute engine control possible. This allows multiple riding modes to be activated through the convenient push of a button.

SMART LEARNING OPERATION (SLO)

SLO is a key-activated mode that reduces engine power and top speed, enabling riders to gain experience with handling and manoeuvring before experiencing the full power of the supercharged engine.

CONVENIENCE

Includes many features that add comfort to a trip on the water such as a large, fully sealed 212 litre (64.4 gal) storage capacity and long retractable rear boarding step.

JETski *ULTRA LX*

REFINED THRILLS

AGILE PERFORMANCE, ALL-DAY RIDING COMFORT.

Comfort and performance strike an ideal balance with the Kawasaki Jet Ski Ultra LX personal watercraft. Abundant power from the 1,498cc engine is combined with a naturally aspirated engine and precise handling. Deluxe features such as the three-passenger LXury Seat™, premium paint scheme and industry-leading storage make the Jet Ski Ultra LX the choice for the discerning watercraft enthusiast.

JET SKI ULTRA LX

EBONY / METALLIC TUNGSTEN GRAY

JET SKI ULTRA LX

EBONY / METALLIC TUNGSTEN GREY

ABUNDANT POWER

Kicking out impressive power, the liquid-cooled, 1,498cc inline 4-cylinder Ninja supersport-based engine delivers the responsive performance that sport riders love. In spite of its high performance, this fuel-efficient, ultra-low emissions PWC easily clears the stringent Air Resources Board (ARB) regulations.

COMFORTABLE RIDE

The LXury Seat™ is the most comfortable three-person seat in the industry, providing rider and passenger optimum support to spend countless hours out on the water.

MASSIVE STORAGE

All-day outings are made easy on the Jet Ski Ultra LX with the convenience of its industry-leading 212 litre (56 gal) storage and 78 litre (17.2 gal) fuel capacity. Pack what you need for a day of fun on the water.

LIGHTWEIGHT HULL

Confidently cut through waves with precision and stability thanks to the deep V, race-inspired hull, which the Jet Ski Ultra LX shares with the Jet Ski Ultra 310 models.

RACE-INSPIRED SPONSONS

The sponsons help “grip” the water in the turns for precise handling and optimum performance.

SMART LEARNING OPERATION (SLO)

SLO is a key-activated mode that reduces engine power and top speed, enabling riders to gain experience with handling and manoeuvring before experiencing the full power of the supercharged engine.

KAWASAKI SMART STEERING (KSS)

The system assists the operator’s handling by simultaneously monitoring the steering input and the engine speed. The system offers assistance when the throttle is released from high speed and a turn is initiated.

KAWASAKI SPLASH DEFLECTOR

Minimise spray at speed or in rough water with the Kawasaki Splash Deflector (KSD). The four KSD ridges located across the bottom of the bow help keep you and your passengers comfortable.

COMFORT AND CONVENIENCE

The 5-way adjustable handle suits a wide range of riders and riding styles, while the long retractable rear boarding step makes it easy to climb on board.

JETSKI STX-15F

CLASS-LEADING POWER

COMPACT, SPORT-HANDLING PERFORMANCE

When the water is calling, answer it with the Jet Ski STX-15F. Along with its unsurpassed quality, the 1,498cc inline-four engine churns out more power and acceleration than other PWC's in its class, while the advanced hull design produces unrivalled handling. The agile composite hull and numerous rider features make it the ideal choice for enthusiasts seeking an exhilarating ride across the glassy horizon.

JET SKI STX-15F
EBONY / LIME GREEN

JET SKI STX-15F

EBONY / LIME GREEN

HIGH-PERFORMANCE ENGINE

The potent marine-grade, naturally aspirated 1,498cc engine with digital fuel injection delivers strong acceleration, excellent fuel economy and low emissions.

COMPACT, SPORT-HANDLING LIGHTWEIGHT HULL

The Jet Ski STX-15F has a slightly more compact and shallow V-Shape hull design than its Jet Ski Ultra siblings. This hull design allows it to get up on plane quickly and easily, making for a nimble and responsive watercraft that specializes in smooth-water manoeuvring. Sport designed sponsons contribute to the agile handling characteristics.

KAWASAKI SMART STEERING

The Kawasaki Smart Steering system assists handling under certain conditions by simultaneously monitoring the steering input and the engine speed. The system offers assistance when the throttle is released from high speed and a turn is initiated to help new riders as they learn to manoeuvre a watercraft.

IGNITION SWITCH

Key-operated ignition switch incorporates an immobilizer function located in the glovebox, helping to prevent theft.

LARGE REAR DECK

The large rear deck of the STX-15F offers plenty of room to sit, get on board or put on skis or a wakeboard. It can also be a convenient place to carry things that won't fit in the internal 89 litre (19.6-gal.) front storage compartment. A long, retractable re-boarding step makes it easy to get back on board after playing in the water.

DIGITAL INSTRUMENTATION

Multi-function digital instrumentation includes a digital speedometer, tachometer, fuel gauge, oil level, hour meter, trip meter, clock, and indicators.

CONVENIENCE

The large, fully sealed storage compartment under the hatch covers provides space to stow belongings, while the 62-litre (13.2 gal) fuel tank provides the convenience for a day on the water.

SMART LEARNING OPERATION (SLO)

SLO is a key-activated mode that reduces engine power and top speed, enabling riders to gain experience with handling and manoeuvring before experiencing the full power of the supercharged engine.

JET SKI STX-15F

EBONY / LIME GREEN

CUSTOMIZE WITH KAWASAKI GENUINE ACCESSORIES.

DEVELOPED BY KAWASAKI ATV ENGINEERS

This ensures a perfectly integrated fit, an easy, seamless installation and long-lasting dependability.

THOROUGHLY TESTED

Through exhaustive testing by Kawasaki engineers, these accessories meet the same stringent quality standards as every Kawasaki Strong ATV.

WARRANTY APPROVED

Kawasaki Genuine Accessories are covered by the Kawasaki factory warranty.

SAFE RIDING'S MORE FUN

Ride responsibly. Kawasaki believes safety begins with us and continues with you. Always wear a Canadian government or USCG-approved personal flotation device, eyewear, and other appropriate safety apparel. Personal watercraft can only be operated by persons 16 years of age or older and in possession of a Pleasure Craft Operator Card. Never ride under the influence of drugs or alcohol. Respect the rights of shoreline residents and other marine recreationists. Boat smart from the start. Take a Boating Safety course. JET SKI® watercraft are inboard powerboats and their use is subject to all applicable federal, provincial, and local boating laws. The specifications mentioned here apply to and have been achieved by production models under standard operating conditions. We intend only to give a fair description of the vehicle and its performance capabilities but these specifications may not apply to every machine supplied for sale. Kawasaki Heavy Industries, Ltd. reserves the right to alter specifications without prior notice. Equipment illustrated and specifications may vary to meet individual markets. Available colours may vary by market.

Kawasaki keeps the good times rolling with unlimited kilometres/hours of usage. We have you covered with our nationwide Kawasaki dealer network. Visit kawasaki.ca/page/warranty for complete details.
